

### Walteria News Notes

By BETTY MITCHELL

Home on leave this weekend was Wesley Christian, Neece avenue. Wesley is in the U. S. Army.

Mr. and Mrs. Sterling Walters of Gardena and Mr. and Mrs. Jack O'Leary of San Francisco contributed to a busy week for Mrs. Laura Wray, Neece avenue, when she entertained both couples overnight.

Friends were grieved to hear of the passing of Mr. Joel Joherg Sr., an old-time resident of Walteria. Mr. Joherg lived in Harbor City for a short time previous to his death.

Walter West, engineer for the Torrance Fire Department, Station No. 1, was presented with a beautiful fountain pen and pencil set at the completion of his instruction of standard and advanced first aid courses on Wednesday evening, January 31. The surprise presentation was made by Captain Ivan Kettering

**FIRST AIDERS . . .** Snapped at the completion of a course in first aid were these residents of Walteria. (Left to right) Lloyd L. Crowthers, Clarence S. Swanson, Mrs. Maurietta L. Vaverka, Mrs. Fern L. Shimmel, Mrs. Molene B. Montgomery, Mrs. Ida Mae Christian, Mrs. Margaret E. Kettering, Fred R. Stevens, Harry G. Drake, (seated) L. V. Christian, Joseph E. Vaverka, Robert S. Sleeth, Robert E. Pralle, Paul W. Hughes, Charles A. Montgomery, Milton T. Langrum, (standing) Captain Ivan Kettering and Fireman Walter West, the instructor, and Carl Combs in foreground.—(Photo by Florence Conze.)

of the Torrance Fire Station No. 2 on behalf of the entire group. After the presentation luscious cake and coffee were served. The cakes were baked by Mrs. Montgomery and Mrs. Vaverka, and cleverly decorated with red crosses by Mrs. Kettering—all members of the class.

A former resident of Walteria, Mrs. Ward is now living in Redondo Beach. She recently returned from Yosemite.

Mr. and Mrs. Dale Wand and daughter Wanda, Los Codona avenue, were dinner guests of Mr. and Mrs. C. W. McAdow of Culver City Sunday, February 4.

Having fun at Pepperdine Camp this weekend were the boys of Scout Troop No. 240, of Walteria. The boys left early Saturday morning and returned from their outing late Sunday afternoon. Accompanying the troop was Scoutmaster William Lintat. The boys attending were: Victor Jones, Bill Young, Austin Beasley, Gary Collins, Mike Sampson, Bobby Adams, Dale Wilson, Sonny Gore, Fred Myers and Johnny Clauson.

The Pennys of Hawthorne boulevard were visitors at the home of Mr. and Mrs. James Watson of Holydale Sunday, February 4.

Mrs. Susie Boxendale of Torrance visited her daughter Mrs. Louis Snyder of Madison street, Monday February 5.

We are indeed glad to report that Mrs. Mollie Dowd, who had been ill since last October, made a rapid recovery since her last trip to the hospital and returned to her position as librarian of the Walteria branch last Monday.

Mrs. Vivian Masher of Bluff street has been recuperating at home after a back injury due to a fall sustained in her home.

The Phelps family are returning to Walteria to live in their former home on Park street. The Phelps have been living in Hueneme.

Mrs. Kenneth Mesh and daughter Sharon Jones, Madison street, were weekend guests at the home of Mr. and Mrs. C. R. Perkins in Lomita. Mrs. Mesh and Mrs. Perkins also visited their parents, Mr. and Mrs. L. E. Wixon, also of Lomita.

### Kite Flyers Need to Heed Safety Rules

Kite flying season is approaching once again and with it the necessity for observing a few simple safety rules, according to L. E. Jenkins, Southern California Edison Company district manager. It is important for parents to impress children with the necessity for keeping kites away from electric power lines, Jenkins said.

Kites should be flown only in open fields well away from power lines or other overhead obstructions. It is important to remember that the kite string is at an angle and may pass over lines some distance away, so care should be taken in choosing the spot.

Wire tinsel or metallic strings should never be used, as they are conductors of electricity. Regular kite cords will also conduct electricity when they become wet, so it is important not to let them touch the ground when it is damp.

Under no circumstances should children attempt to dislodge a kite that has become tangled in an electric line. A telephone call to the company owning the line will bring a lineman with the proper equipment to take the kite safely from the lines.

Kite flying is an enjoyable sport that need never be dangerous if these simple rules are followed, Jenkins said.

### Dairymen Urged To Attend Free Class Series

Designed to help dairymen and their employees of this area to keep abreast of the latest developments in the dairy fields, a free series of classes will start February 15 at Gardena High School.

Among the subjects to be studied are: February 15, Fly and Rodent Control; February 22, Artificial Insemination, and Sales versus Surplus; March 1, Good Milking Practices and Labor Efficiency in Milking Barns; March 8, Panel Discussion of Dairy Problems.

Diplomas will be awarded those who attend the series.

The various courses will teach practical and scientific methods for greater efficiency in the care and management of dairy herds along such lines as feeding, breeding, and sanitation. Ultimate aim of the courses is to bring about more and better quality milk.

Additional information about these and other related classes will be given over the radio show, "Farm Hour," according to Ben Cluff, local dairyman.

**CLASS OPENS TO GIRLS**

In order to meet the need of defense industries for more draftsmen, Harbor Junior College will open its regular drafting classes to women students during the spring semester, according to Dr. John Allan Smith, administrative dean.
